Webinar on "Cyber Swachhta"

18th October 2023 - 1100 Hrs to 1230 Hrs

"Cyber Swachhta" refers to the practice of promoting good cybersecurity hygiene and practices among all individuals, businesses, and organizations. It plays a crucial role in maintaining a safe and secure digital environment. In today's digital age, Cyber Swachhta is equally important as Physical cleanliness. By implementing the Cyber Swachhta best practices, organizations can better protect their assets, data, and reputation while promoting ethical behavior and compliance with regulations.
